

# Advanced Report Builder ARB-BI

## What is Advanced Report Builder?

**Advanced Report Builder (ARB)** is a powerful new way to query and present data from your **Bromcom MIS**. Its sophisticated reports combine data from all areas of the MIS. ARB presents multiple queries in a single report in tabulated and graphical formats.

The Advanced Report Builder integrates with your Bromcom MIS reporting facilities and includes the following features in progressive releases:

## Features and Benefits

- > Most advanced Report Builder in the market
- > Report Scheduling Integration
- > Direct connection to MIS data
- > Ability to link to external data sources
- > Import and Export (as file)
- > Online Repository Integration
- > Integration of Quick Access from Home Page
- > Individual Report base
- > Permissions (View/Edit –subject to licence retractions)
- > Built-In MIS Export (with DMS, Publish to MCAS, Publish to Student Portal, etc.)
- > Interactive Parameters
- > Arithmetic and logical expressions
- > Sophisticated filtering
- > User defined variables for use in calculations
- > Combine any fields

## What is Power Business

## Intelligence (BI) ?

**Power BI** is a suite of business analytics tools that deliver insights throughout your school/academy.

### HOW DOES ARB-BI HELP YOUR SCHOOL/ACADEMY?

- > Customisable data dashboards are a standard feature in the Bromcom MIS but with Power BI integration, schools and academies can embed customised data dashboards.
- > Create dashboards using data from the MIS such as combining assessment, behaviour and attendance statistics in real time and presenting them in a graphical and interactive interface.
- > Present data from other databases that integrate with Bromcom, such as information from a compatible Financial Management solution.

### WHY CHOOSE ARB-BI?

- > ARB-BI is the perfect resource for senior leaders who have to monitor multiple performance metrics but do not have the time to conduct lengthy investigations.
- > Bromcom provides prebuilt dashboards to use immediately, you can develop and share others when needed.

### HOW CAN YOU USE ARB-BI?

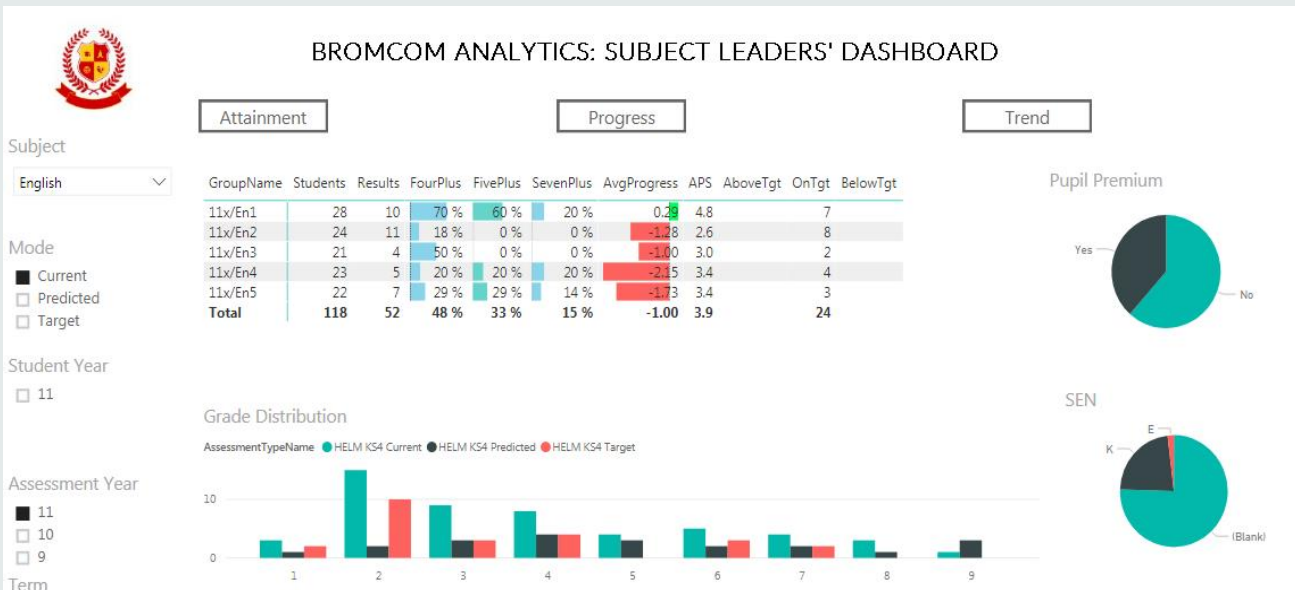

- > To use this feature, you will need at least one user with a Power BI account, this is available from Microsoft.
- > Depending on the approach taken, other users can either access shared published dashboards and/or have their own Power BI accounts.

## What is Bromcom Analytics?

**Bromcom Analytics** is a tool that provides in depth subject and class level performance analysis.

Bromcom Analytics allows you to compare the performance of key student groups with flexible interactive controls.

Graphical and interactive interface presenting 2018 KS4 performance indicators.
