Lead.
Act.
Evolve.

Bromcom's MIS makes managing your academies and trust, that much easier. With slick interfaces, detailed dashboards and a comprehensive overview of all of your pupils and staff, you can analyse the past, prioritise the present and plan for the future.

MIS

One. Stop. Shop.

We have worked with the education community to build a product designed to support everyone. Say goodbye to costly bolt-ons, Bromcom consolidates all your data and functionality into a single solution.

> " We want to go to one system with single sign-on, and from a teaching point of view I want to go in the classroom, do my register, do my behaviour and that's it. I don't want to be going to logging into five, six, seven different systems to do that.
>
> **Nick Berryman**
> Assistant Headteacher - Devonport High School

It's more than an admin tool.

From students and families to staff and stakeholders, we provide all the data and tools you require, under one umbrella to engage and inspire.

Trust Leaders

Make informed decisions with easy access to schools performance metrics and develop your team with our CPD and Performance Management tools.

Business Managers

Reduce workload with automated tasks and create a self service portal for parents.

Teachers

Our class dashboard provides all the functionality teachers need at their fingertips.

Parents

Be automatically notified of issues and have visibility of your child's progress. Book appointments, trips, clubs, wraparound care and pay online.

Safeguarding Lead

Keep track of cases with our safeguarding dashboard and ensure that no stone is left unturned.

Students

Own your progress with visibility of your school performance. Access class resources and submit homework.

Using Bromcom is the easy bit.

Data is nothing without the ability to access it. Bromcom's interface combines intuitive dashboards with logical pathways to create a user-friendly experience. Obtain all the information you need in just a few clicks.

Teacher Dashboards
All the functionality teachers need, at their fingertips

Quick Reports
Export data from virtually any source with a single click

Walk-through help tool
Instant direction on tasks that elude you

Hit the ground running.

Not only is Bromcom easy to use, it's easy to get to grips with. With limited training required you can transfer from outdated and time consuming systems in a matter of weeks.

Don't just take our word for it, our customers say the same...

> We felt from a user experience of a TA, teacher and administration staff, it's been thoroughly well thought out and is a highly matured system. It was over and above the rest of the competitors, with that ease of use.
>

> Information Governance and Strategic ICT Lead
> Nexus Multi Academy Trust

Capacity to lead.

Handle the day-to-day while keeping an eye on the bigger picture. School leaders have a complete view of how their academy can progress, allowing them to effectively manage develop and retain staff.

Analysis for improvement can be conducted across the board. Be it trustees, office staff or classroom teachers, you can lead from the front knowing you have all the information in your arsenal to provide the best experience for all.

Performance Management
The performance management page provides focus on individual and collective targets to improve trust-wide performance

CPD
A designated CPD portal gives all staff the opportunity to excel
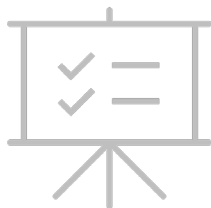

Governance.

Provide appropriate visibility for your important stakeholders. Efficiently share headline figures on academy performance to all relevant stakeholders.

Strategic Objectives.

Objectives in line with your ethos. Align individuals targets with desired trust outcomes and pull together as one.

Capacity to act.

Decipher your data. Analyse, assess and action strategies with Bromcom's accessible dashboards. Proactivity has never been easier with the ability to visualise patterns and follow best practice in seconds not hours. Spend your time making a difference and not bogged down in incomprehensible statistics.

Helpful Analytics

Dashboards help the end user to visualise and inspect information spanning attendance, behaviour, assessment and more. Headline figures are just as accessible as a forensic drill down.

Identify trends

Proactive not reactive. Respond to visual indicators and identify areas which need intervention

Benchmark data

Compare statistics with other schools, classes or individuals. Assess against previous performance to guide future learning

Automated Alerts

Be notified on issues as they arise. Quell complications before they have a chance to arise

See the complete picture.

Trying to prise pupil data from multiple systems can be a logistical nightmare. Bromcom provides a single point of reference so you can have an even better understanding of your students.

Rita's attendance has increased and she is no longer a **Persistent Absentee**

Rita has moved up to the **expected level** in Maths

Capacity to evolve.

Evolution is part of a trust's fabric. Investing in both your team and academies' processes is crucial for maintenance, development and growth.

Bromcom provides the scope for schools to innovate, be that through flexible assessment, excellent engagement tools or automated behaviour actions. Reduce your admin workload and make your time count.

> " Not every school is necessarily the same, so we set it up how we want it to work for our school. "
>
> **Debbie Williams**
> Data, Exams & Assessment Manager
> Hampton Academies Trust

Build your community.

With both a parent app and web portal, parents will be more engaged than ever. Keep them included in their child's educational journey to ensure the learning doesn't stop when they leave the school gates.

Not just any school. For your school.

Your MIS needs to work for you. With bespoke training, configurable dashboards and a dedicated customer service team, we understand your needs and adapt our product to suit you. Don't settle for off the shelf!

Maximise pupil opportunities.

With Virtual School and Shared Campus, allow multiple schools across your trust to form partnerships and give your students the opportunity to explore alternative options not afforded at their home campus.

Seamless sharing.

Toggle to the virtual school from a dropdown menu within Bromcom's MIS and immediately access results, reports and attendance of pupils educated across multiple locations.

Everything in its place.

Whilst data is accessible for all shared pupils, census returns are limited to those who officially attend your school.

Vision

Having Vision.

Vision is the hub of your Trust's management information system, allowing you to derive information from across your community and implement positive changes on a global scale.

Improve as a collective.

This central hub of operations marries together slick dashboards with flexible analytics, enabling you to prioritise data and the people behind it. MAT Vision provides you with the ability to accurately target areas for school improvement within your trust and increase performance across the board.

Benchmark your data.

With a wide array of analytics built-in, users can assess a variety of KPI's related to Attendance, Behaviour, Exclusions and more. Charts can be broken down and assessed against other cohorts and also against national averages. Drill down to local records in moments, triage and ensure no student or school slips through the net.

Remaining centred.

Vision empowers a central team to derive insight and make necessary changes with a click of the button. This total visibility allows the promotion and sharing of good practice, innovative techniques as well as mandatory changes which are required trust-wide.

Power to you.

Bromcom Vision integrates a Power BI Viewer and live data feed which gives you the capability of creating entirely bespoke views of your trust. Visualisations of target groups, trust KPIs and more allows you to interrogate information on a forensic level and assess progress continuously. Unique to us, in the MIS sphere, this component takes analysis to another level.

Navigate freely.

Our MAT Vision product uses a familiar UX-UI to our Cloud MIS meaning users can transition freely between all of our interfaces. A system which truly speaks your language.

Roll out roll out.

Activate trust-wide changes in just a few clicks. Allowing schools to operate autonomously without losing the ability to report or manage change, centrally.

One click exports.

Download and transfer information from across your trust in moments. Notify stakeholders of performance or send pupil premium data to key stage leaders in an instant. No need for manual processing, its done for you.

Authorising access.

Provide appropriate access to a wide variety of roles within your community by assigning permissions to relevant data.

Covid-19 Dashboard.

Keep in line with DFE regulations with Vision's Covid-19 dashboard. Keep a keen eye on absences and patterns to ensure provisions are always in place.

Finance

Finance at the heart of your Trust.

Bromcom Finance let's you accurately assess where your budget is spent; control your financials and forecast for the future from one centralised portal.

Empower
budget holders.

Provide ownership to those in charge of how your money is spent. Approve spending, delegate duties and restrict channels to ensure accountability throughout your community.

Manage your trust funds.

Bromcom Finance is embedded within our MIS, so there's no need to jump between programs or waste time re-entering data. Efficiently fulfil multiple trust roles, from HR and Trust Manager to CFO, all through one comprehensive platform.

Access anywhere, anytime.

Command school or trust budgets from your desk or home office, with our cloud-based solution. Be safe in the knowledge that your finances are protected and only seen by those with relevant permissions.

Time well spent.

Manage your time more effectively with Bromcom Finance and experience a system which takes care of the hard work for you.

Map Ledgers.

We provide the ability to map ledgers to ESFA returns seamlessly, including BFO, BFRO, SOFA and Management Account Codes. Bromcom has also adopted the Standard DFE chart of accounts as part of their finance offering.

Automatic Renewals.

Our system provides the ultimate in transparency when it comes to renewals. Auto-generated notifications provide opportunity to seek new suppliers at cheaper prices. Reactivity can now become proactivity, saving you thousands in the process.

Reduce repetitive tasks.

Create templates to quickly process commonly used invoices. Speed up the process of adding orders with our cloning tool meaning labour intensive data entry is now a thing of the past.

School Workforce Census

"

What I like about Bromcom Finance module is that it is constantly improving! Bromcom have supported a local network of product users and are open to feedback, using this in their aim to continually make improvements both to functionality and user interface. We feel as though we have a great working relationship with them alongside having a great product.

Wendy Whistler
Business Manager - Swavesey Primary School

"

Know where every penny is spent.

Bromcom's reporting suite allows you total clarity over your finances.

Drill down capabilities.

Analyse payments from your top level ledgers right down to specific journals. Click through functionality provides you with the full picture on all order details and their associated documents. Better understand where your money is being spent with interactivity at every step.

Save money, save time, save the environment.

Bromcom eradicates the need for a physical paper trail with paper invoices becoming digital receipts, easily downloaded and transferred to relevant stakeholders. Save thousands across your MAT with filing cabinets a thing of the past.

Single click exports.

Export any table or data source with just one click of a button. Extract the data which matters to you and assess in moments.

Reporting.

Allow stakeholders visibility over where your budget is being spent with the ability to automatically email or schedule reports. Additionally, create bespoke reports to suit your school or trust's targets/projections.

Manage your assets.

Have the freedom to add existing asset registers and create new items from invoices. Bromcom finances also provides the capability to take accurate stock takes and inspection records. Save your financial data in a way that suits you.

Intercompany Journals.

Utilise our functionality to complete intercompany journals to complete salary recharges all in one location. Financial information, all in one place.

"

It's just so easy to use as soon as you pick it up. You don't have to navigate between different screens and login to different systems, it's just there, in one place. The finance page in particular is just brilliant both in terms of information and aesthetics. In school you always need information quickly and Bromcom permits this. You can dip in, get what you need and dip out again.

Harry Mall
School Business Manager
Penns Primary School

"

Budgeting Dashboard.

Compare your actuals against budget lines. Set parameters to ensure over-spending is not a possibility. Assess your spending with benchmarking capabilities and be under no illusion with how your budget is being spent.

The future's visible.

Bromcom's budgets now give you the opportunity to plan for the future. Create unlimited budgeting hypotheticals, forecast with bulk entries and accurately decipher where your school or trust can reach in the coming weeks and months.

Projections.

Our Salary Projections give you instant and ultimate access to review and model expenses in the existing financial year. Complete statutory reports and provide financial breakdowns to stakeholders with ease. Use previous budgets to inform your existing and future spending with just a few clicks.

Scenario management.

Model financial increments and 'what-if scenarios' at will. Allow your stakeholders visibility over where your finances could be spent. Plan for every uncertainty in an ever-changing environment.

Coming in Q4 2022.

Build and support your workforce with our central HR analysis and management tools.

HR

Bring HR in-house.

Building on the success of our HR functionality within the MIS, we've been taking it to the next level by providing MAT wide functionality

Reduce school burden.

Provide Central HR functions such as SCR, DBS and absence authorisation. Manage staff records and provide feedback to schools on the fly.

Stay on top of issues.

Schedule and automate performance ratings based on defined criteria, receiving alerts when key metrics are met.

Develop from within.

Drive development across the organisation through MAT wide CPD events, appraisal objectives and recording feedback centrally.

Informed Governance.

Identify the strengths and weaknesses within your workforce and keep track of vacancies across the board.

Migration

No frustration migration.

Want to hit the ground running or prefer to move at a glacial place? We have a migration plan to suit your needs. With a dedicated team assigned to make your transition as smooth as possible, create a programme that is tailored to your MAT.

Migration.

Discovery

We'll work out where you are now, what you want to achieve from the switch and how we can get from A to B.

Migration

We'll audit each school's data and check if anything needs cleansing. After that, it's all systems go with our Deployment team, and your data migration can be performed in a matter of hours.

Transition

Schools can train using a copy of their own data to get everyone up to speed in a familiar environment. Our success managers are on hand to ensure that everything is lined up according to your needs.

Support

Receive ongoing support from a dedicated helpdesk then join our user groups and specialist communities to learn from likeminded peers.

"

The training was remote and Bromcom were able to adapt to our requirements, meeting the timescales we set to ensure all staff were part of the change, and not simply told to-change.
